

**Fall 2011 - Summer 2012
Oak Hill Gardens
Special Wholesale Listing
www.oakhillgardens.com**

Dear Customers and Friends,

Almost all of the orchid varieties listed in this mailing are *new* to our wholesale list as of August 2011. You will also find these new varieties listed in our website wholesale section, along with 30+ additional offerings which have been rolled over from the Spring wholesale list (www.oakhillgardens.com). You will see that we have drastically reduced prices on most repeat items, as well as provided very aggressive pricing on these new varieties. We hope that you will be able to identify some plants that will help set you apart from the competition at upcoming orchid shows, and/or to spice up your internet-based business/auction offerings.

This “**Special Wholesale Listing**” features varieties that we have in larger quantities at very special prices, reflecting even deeper discounts from our normal wholesale policy (most are discounted in the 30-75% range!). **The plants listed below are at wholesale net pricing (no further discounts) and are available at these prices only when five (5) or more of each variety are ordered.** These plants should provide you with a quick turnover and allow for profitable resale. *Please feel free to download any of the photos on the Oak Hill Gardens website (or clip them from our printed catalog) to assist you in marketing the plants you purchase from us!* We appreciate your past business and look forward to working with you during the next year!

Feel free to order by mail, fax, phone, e-mail, or on-line! Satisfaction is guaranteed!

Best wishes!

Hermann Pigors

Greg and Liese Butler
